## Computer Engineer - Universidad Católica del Norte

A responsible, asertive and persistent person, currently running public fediverse services. I have experience with GNU/Linux system administration, Fediverse, Python, Java, JavaScript, Office, Power BI, database connections, Git, LATEX and Scheme.

## Professional experience

### Programming Languages Professor

**Universidad Católica del Norte, Chile. 2026/03 - 2026/04**

- For Computer Engineer students
- Teached students to analyze and understand different programming languages

### Web Data migration and full-stack development

**Universidad Católica del Norte, Chile. 2025/09 - 2025/12**

- Full-stack new features and data migration for Totoralillo, EIC' web service.
- Added new features and recolected and organized dispersed information to the website.
- JavaScript, NodeJS, MongoDB, React.

### Reinforcement Classes

**Universidad Católica del Norte. 2024/10 - 2025/08**

- Classes made to support students who have failed multiple times a subject and are trying to improve.
- Teached struggling students to improve their marks and pass their classes.
- Subjects: Programming and Object Oriented Programming
- Python, Java.

### Planification of ISO/IEC 27001

**Austranet, Santiago, Chile. 2023/08 - 2023/12**

- Successful planification of a framework to start an ISO/IEC 27001 certification project inside the company, for Austranet-GRC.
- Management and creation of documentation for ISO/IEC 27001 standard.
- Planification on Gantt Chart, for its posterior implementation.

### Internship (Data Analysis)

**Falabella S.A., Chile. 2022/01 - 2022/03**

- Successful optimization of data extracting processes. Elimination of unnecessary steps, improving data connections to sources from Power BI.
- Data extraction from different sources and databases.
- Data analysis using Power BI.

### Teacher Assistant

**Universidad Católica del Norte. 2021/08 - 2023/07**

- Lectures for students about Programming Languages.
- Help for the titular professor.
- This course covers the elements of Programming Languages, Scheme and interpreters using PLAI.

## Studies

## **Computer Engineer (With honors)**

**Universidad Católica del Norte, Chile. 2018 - 2023**

## **Gas Installer, Class 3**

**SENCE course, CEGECAP, Chile. 2025**

## **Languages**

- **English:** C2 (<https://cert.efset.org/es/pb9jgQ>)
- **Spanish:** Native

## **Projects**

### **Chilemasto, Personal Project, Chile. 2019/09 - Present**

- Running the oldest active fediverse instances in Chile.
- Active system administration and moderation of fediverse social media. First chilean fediverse still online.
- Software includes Mastodon and Friendica.
- Involves databases, web servers, packages and services management.
